Description: Mathematics and science can be thought of as a search for patterns and structure. Discovery and insight comes when patterns are recognized and structure is understood. Pattern Explorer provides rich and diverse collections of pattern problems for students to explore, investigate, discover, and create. Forty activity sets are divided into five themes...

Review: As a highly qualified teacher, I find that students lack logic and reasoning skills. My homeschooled students are currently using the Pattern Explorer Level 1 as part of their practice for logic and reasoning skills. The variety of skills learned and maintained by my sixth grade students made them want to add more logic and reasoning skills for their...
